---

## WORK EXPERIENCE

April 2008 – Present      **Paul McWade Systems**      Hull, Ma

*Freelance Developer*

- Development of an e-Commerce website
- Performed development tasks for Access systems

*Environment: MS Access, PHP, CSS, JavaScript, XHTML*

June 2007 – Present      **Kickass Cupcakes**      Cambridge, Ma

*Freelance Web Developer*

- Developed and designed the [www.kickasscupcakes.com](http://www.kickasscupcakes.com) website
- Built an XML based press page
- Created an XML based photo gallery with admin pages to adjust content

*Environment: PHP, JavaScript, CSS, XHTML, XML, AJAX*

May 2008 – Present      **Dancing Deer Baking Co.**      Boston., MA

*IT Consultant*

- Built an Access system to convert and validate a raw data feed into an import file.
- Performed general Helpdesk and Network Admin tasks.

*Environment: MS Access, Windows XP, Great Plains, Server 2003, Exchange 2003, NT Backup, Mail Order Manager*

Oct 2001 – Mar 2008      **Dancing Deer Baking Co.**      Boston, MA

*Webmaster, IT Coordinator and Order Processing Manager*

- Build, enhance and maintain the company's three e-commerce sites:  
[www.dancingdeer.com](http://www.dancingdeer.com) ♦ [www.sendmunchies.com](http://www.sendmunchies.com) ♦ [www.breakthecursecookie.com](http://www.breakthecursecookie.com)
- Provide 24x7 support for all web systems, on-site & off-site sales offices and IT infrastructure
- Use Electronic Data Interchange principles for 25 external Reseller websites to process orders

### *Accomplishments*

- Optimized the site to increase its ranking from last to first on Google and Yahoo.
- Improved the site's business logic to include holidays in the calculation of ship & arrival dates.
- Replaced the framed navigation with JavaScript based pull down menus.
- Modified the confirmation page to be a printable receipt page.
- Created and sent monthly HTML marketing newsletters.
- Managed up to six order processing assistants during our busy holiday season each year.
- Wrote custom Perl scripts to create UPS import files from reseller EDI feeds.
- Developed an MS Access system to improve our Vendor packaging price negotiations.
- Determined and set up the IT infrastructure needed for an off-site sales office with 17 users.
- Filled in for the Creative Services Designer for 9 months to work on the design of packaging.
- Created an MS Access system to convert EDI data into packing slips and a UPS import file

*Environment: JavaScript, XHTML, CSS, PHP, Smarty, Windows XP, Crystal Reports, Access, Windows Server 2003, MS Exchange 2003*

2<sup>nd</sup> Semester 2001

**Pinpoint Corporation**

Billerica, MA

*Test Software Developer (co-op)*

- Built a C program to record testing data from microwave tag locators into a SQL Server 7 database and then display the recorded data based on built in and user entered SQL queries.

### EDUCATION

---

1997 – 2002
